

Interns Selected for the 2016 Summer Research Program

Twenty-five undergraduate student interns have been selected to participate in the 2016 WV-INBRE Summer Research Program at West Virginia University and Marshall University. Eight interns will work at Marshall University and seventeen will conduct their internship at WVU. Fifty-one applications were reviewed to fill the twenty-five positions. Interns come from ten of the thirteen Primarily Undergraduate Institutions in the WV-INBRE network.

The Summer Research Program will run from May 23 till July 25. Interns will conduct biomedical research projects under the direction of faculty mentors and present the results of their research at the Summer Research Symposium, which is scheduled for July 25 at WVU. The morning session of the symposium will consist of oral presentations by participants and a keynote lecture. Poster presentations will be held in the afternoon.
